BEYOND THE IDEA OF VAN
MOBILVETTA ADMIRAL

MOBILVETTA PAVES THE WAY FOR EXCLUSIVITY IN A **VAN**

YOUR
freedom

TO
admire

MOBILVETTA ADMIRAL

Everything stems from an ambitious objective: the desire to spread the value of Italian style through design, aesthetic excellence, performance and a great passion for quality.

Mobilvetta pursues its talent. The idea became clearer: a new proposition in the top class van segment: Admiral.

LUXURY EXPERIENCE

The beauty of a holiday in the company of those you love is hidden in the details.

We care for them tirelessly, because all together they make an experience unforgettable. Any detail is a part of a whole story. Your story on board Admiral.

ITALIAN DESIGN

Design has always been a hallmark of Mobilvetta: unique, elegant models with distinctive, personalised lines.

Admiral: readily recognisable.

EMOTION. PASSION. PERFORMANCE.

There is a reason behind every choice we make. Materials, technologies and solutions are worth it for what they bring and for the unique moments that will delight you.

Let's choose the best, not the most. Only what you need, all what you need.

DOING FAMILIAR THINGS IN A NEW WAY
THIS IS INNOVATION

LUXURY EXPERIENCE

Exclusive and cosy environments.
Evocative atmospheres on board.
Premium class comfort.
Extraordinary sleeping experience.
Unprecedented living space.

EMOTION. PASSION. PERFORMANCE. ALL IN ONE.

High-level technical and construction solutions.
Wide choice of robust and noble materials.
Grade 3 thermal insulation. Winter holiday included.
Soundproofing. Noise Reduction Experience.
All you need is...here. Full top-class equipment.

ITALIAN DESIGN

Distinctive Made in Italy design.
Quest for beauty.
Care for detail.
Extremely personal and recognisable.
Concrete and pragmatic.
The van is a way of life.

EACH ONE IS *unmistakably*
ADMIRAL

Some of the features shown do not correspond to the final features of the vehicle for the current season.

The Mobilvetta Admiral van now paves the way for exclusivity in a van. Perfect for any kind of holiday, compact, handy, plenty of space. A way of travelling that will ensure you unique moments. Three trendy solutions, three ways of experiencing the van.

SUMMER IS OVER AT LAST

There may be many reasons to prefer summer. We give you our five reasons for winter.

1

Van panels interior lining with highly-insulating materials: polyester fibre covered with aluminium film.

Anti-condensation insulation.

A further layer of water-repellent material covers the inside of the walls in contact with the aluminium film.

2

Polyester fibre non-toxic, hypoallergenic and mould-resistant. Resistant and long-lasting. Good soundproofing capabilities.

Aluminium film: a light, versatile and ductile material. Resistant to heat and sudden temperature changes. It increases the thermal insulation capacity and is a moisture barrier.

3

No thermal bridges.

Total coverage.

On panels
Roof
Floor
Doors

4

Insulation and protection for all seasons

Composite panel lining with soft fabric.
Microfiber roof lining.
Wall and roof lining in soft-touch fabric.

5

GRADE 3 INSULATION

Specific test carried out in climate chamber.
Grade 3 insulation achieved.
Van with panoramic roof.

SILENCE

IS JUST

the lack of noise.

ONBOARD LIFE IS QUIETER AND REFINED.

Focus on what you feel inside.
Just the sound of your emotions.
On the road, when stopping for a rest, with those you love.

NOISE REDUCTION *Experience*

1

ROOF COVERED IN MICROFIBER WITH FOAM INSERTS.

Sound-deadening roof.
Anticracking.
Covering the roll noise of the road.
Covering noises from outside.
The roof of the van consists of a multilayer, a microfiber exterior finish, an inner lining with foam backing

2

PADDED PANELS AT THE REAR WINDOWS.

Special padded panels give a special finish to the windows and protect against outside noise and interference.

3

INCREASED THICKNESS OF INTERNAL FURNITURE.

High thicknesses. From 14 mm to 20 mm.

Stable, solid and durable, it resists shocks well.

4

FLOOR COVERED IN THICKER PVC

Noise-proof.
Anticracking.
Covering the roll noise of the road.
Covering the footfall noise.
Floor with double thickness!
The flooring consists of a polystyrene sheet, a multilayer, a PVC coating.

EVEN THE BEST DREAMERS NEED **NEW INSPIRATION**

In a Mobilvetta van, the sense of well-being, the pleasure for eyes and ears is amplified by the comfort and practicality of interiors. The design solutions make full use of the available space, in a perfect blend of functionality and style through an exquisite combination of ultra-modern design and clever use of wood, laminates and the finest materials.

Add the exquisite living comfort of all areas on board, inside and out, and you have the ideal mix of performance and style for an unrivalled in-van experience.

EACH SETTING IS DESIGNED FOR THOSE WHO WILL LIVE IN IT.

1

PREMIUM CLASS COMFORT: ERGONOMICS, AESTHETIC AND FUNCTIONALITY.

Environments characterised by a continuous search for fluidity between inside and outside. Rounded corner profiles, curved lines, sinuous geometries. A design that creates functional spaces where all the activities for which this environment is intended can be carried out without hindrance.

2

EXTRAORDINARY SLEEPING EXPERIENCE.

Offering the best sleeping experience, always to satisfy the senses, day after day. In the sleeping area our talent is expressed through excellent design, insulation systems, proper air circulation, soft upholstery, memory foam mattresses and 3D slats.

3

INNOVATION, TECHNIQUE AND MATERIALS. QUALITY AND TECHNOLOGY IN MATERIALS. HPL LAMINATES.

The base of the wall units and the outer side of the kitchen are made of HPL high-pressure laminate, an innovative, easy-to-clean and service innovative material that resists the passage of water, heat and scratches. With an antibacterial coating, it ensures hygiene and cleanliness.

4

REINFORCED WALL UNIT STRUCTURE.

The bottom structure of the wall units has a reinforced base that ensures stability and solidity over time.

TO EXPLORE NEW HORIZONS IN AN ENVIRONMENT THAT MAKES YOU FEEL AT HOME.

Admiral is synonymous with sophisticated elegance, beauty and distinctive details.

Like the exclusive ceiling panel upholstered in eco-leather. Cleverly integrated into the ceiling environment, it incorporates the panoramic roof and portlight into a harmonious continuity. Enhanced with LED lights for the right atmosphere, front storage pockets, blind and flyscreen.

THERE ARE ALL THE DETAILS, FOR CLASSY LIVING.

Everything is about feeling good in the van. Rounded interiors and rounded table edges with a precious chrome leg. Table with folding top and extension for maximum comfort when travelling or standing. Removable, engages on the outside, too. Automotive-style contoured seats with adjustable head rests. USB sockets for device charging within easy reach.

Gloss laminate doors in continuity with the wall units merge the cab and the open space and give uniformity to a room surrounded by high-quality insulating soft-touch walls.

the dinette

INTERIORS

SUPERIOR EXPERIENCE OF LIVING SPACE

A holiday in a van has the taste of freedom and the warmth of staying together.

The wall units in the living area are spacious and equipped with interior lighting that is automatically activated when the door is opened.

To better share the space with your loved ones.

Admiral is a design that has turned the combination of aesthetics and utility into an art, in every environment. Inside, each object has an ideal destination. The double flooring provides space for a hatch and a pull-out drawer. The sofa has a storage compartment on the side and a double bottom inside, under the seat cushions.

TALENT IS KNOW-HOW

A skill that combines culture and knowledge. An exclusive design idea. An art that in the Admiral kitchen is expressed through excellently designed systems that meet people's needs.

PEOPLE AT THE CENTRE

The worktop, made of high-quality acrylic stone, is shaped in a continuous surface and includes the steel burner block and the integrated retractable sink also made of acrylic stone. If necessary, the worktop can be moved to reveal the sink underneath, providing a large surface area. The kitchen is completed by a spacious, removable side fitted basket with stainless steel shelves and bottle holder, accessible from inside or outside the van.

The Admiral kitchen reveals high-quality details: a distinctive design with soft lines in a perfect balance between function and form, precious materials destined to last, transformable modules to multiply space and functionality.

GENEROUS SPACE AND EQUIPMENT

The secret of any kitchen is organisation, the perfect interplay between elements that enhances their usefulness and improves the overall experience. Because all is easier when everything is at hand, thanks to a variety of specific equipment.

Because all is easier when everything is at hand, thanks to a variety of specific equipment. A kitchen with beautiful and effective shapes: rigour, simplicity and design all in one. Mobilvetta interprets Admiral interiors as a total experience and offers the right mix of space and functionality.

The wall unit is spacious and equipped with an internal shelf. The bottom surface is HPL laminate, which is strong, durable and antibacterial. When the unit door is opened, the interior lighting is automatically activated. Practical LEDs on the lower exterior of the wall unit illuminate the worktop.

There are three large front baskets completely pull out and with automatic closure, deep and stable thanks to their 14-mm thickness. The baskets are equipped with automatic closure and locking while travelling, metal sides, cutlery internal drawer. A stainless steel spice rack and a 84-litre compressor refrigerator complete the equipment.

EXTRAORDINARY SLEEPING EXPERIENCE

The sleeping area is the most intimate and personal place, perfect for relaxing as well as resting. That is why this room is to be furnished paying special attention to detail and creating an atmosphere that reflects the user in every nuance.

Large wall units with reinforced bottom structure on three rear sides. Maxi stowage that also makes use of the junction corners.

BEDS DESIGNED FOR “SWEET SLEEP”.
Designed for regenerating rest: memory foam mattresses with 3d System bed bases, antibacterial fabric, insulating soft touch wall and roof lining. Padded window trim with ambient LEDs.

Feeling of exclusivity and well-being dedicated to your intimacy: proper air circulation through a double window (K 6.5 model) and roof portlight, extra heater and insulation, bed insulated from stowage by a marine plywood panel.

Solutions for everyday living that suggest a new concept of comfort and relaxation. Radio speakers located under the rear wall units, storage compartments, and recesses in the rear uprights for smartphones, glasses.

DON'T JUST CALL IT A BATHROOM.

An environment for relaxation and self-care where the harmony of shapes and materials provide elegance to spaces that can be personalised. Versatile, spacious, high-quality: the Admiral toilet is a main player.

AROUND SMALL, BIG, EVERYDAY NEEDS.

The washbasin is large, cast in anti-bacterial acrylic stone, with click clack drain. The shower mixer sits on a slide rail and is separated for easy operation as required. Lots of space!

3 compartments with doors, 4 storage compartments, soap holder. Total wellness. Mobilvetta has chosen to coat the furniture of the Admiral toilets in HPL laminate, with an extra thickness, to provide greater resistance, hygiene.

A window with flyscreen completes the equipment for a light and airy, feel-good atmosphere.

A GAME OF PERFECT VOLUMES AND FUNCTIONALITY.

One touch is all it takes to interact and modulate the environment to suit your needs. Toilet only: ergonomics for your daily well-being with plenty of free space and legroom. Shower only, XL space up to 90 cm transverse, with lowered shower tray and wooden footboard. The Admiral's toilet area is one of the largest in its class.

MOBILVETTA

In Admiral K 6.5, electric socket and external shower outlet in rear garage supplied as standard.

THE REDISCOVERED ORDER

Rational solutions that become precious spaces in which to store the necessities and more for total daily comfort, all... at your fingertips.
Three different solutions for organising the rear area of your van. The interior space is optimized to the maximum to store all the necessary equipment.

Choose the one that best suits your needs for practicality, space or securing your luggage.

ADMIRAL K 6.5

Elevating bed with electric movement on belts. With the bed lowered you have a 75-cm high garage, while with the bed fully elevated you get a 130-cm high compartment. It is still possible to adjust the bed to any desired height, to sleep while retaining space for the equipment underneath, to transport any kind of luggage or equipment without removing the bed each time. The sheet metal cover with a non-slip surface protects the floor and the supplied ramp facilitates loading.

ADMIRAL K 6.3

Twin beds that can be raised provide extra-large stowage space. The double flooring is removable for modular storage volume. An additional storage kit is available: three removable cabinets that can be assembled and disassembled as required.

ADMIRAL K 5.1

Rear transverse double bed with lift-up bed base for storing larger luggage such as bicycles or scooters. Floor on a single level.

NEW Horizons

INSULATED AND PROTECTED.

The mattress rests on a fiberglass tank, separated from the original sheet metal of the van.

INSULATED.

Possibility to choose as optional an insulation kit consisting of an insulating and thermal cover.

MORE ROOM TO SLEEP, MORE ROOM TO STOW

2 extra beds.
With reading lights on both sides.
Possibility to use the back of the van only as stowage.

AUTONOMY

External roof surface available for the installation of solar panels.

COOLER IN SUMMER

Air recirculation thanks to openable windows.
Outside the sheet metal of the van.

Raising retractable roof *
dimensions 2 x 1.3 metres.

Integrated skydome
dimensions 115 x 40 cm.

STRENGTH, BRIGHTNESS AND DURABILITY.

**To increase the vehicle payload, when travelling it is possible to reduce the fresh water tank capacity to approx. 20 lt.

The mass in running order includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and aluminium gas cylinders (max.15 kg) filled to 90% of their capacity, and tolerance specified in the type-approval (+/- 5%) (2007/46/EC). Anything not included in the standard version of the vehicle, both living unit and chassis, results in an increase in weight in running order with resulting decreased payload up to the possible reduction of approved seats in the case of the total weight for the available payload value. The available payloads result from the difference between maximum permissible mass and running order mass and have a tolerance of 5%. During the purchase phase it is necessary to check the weight of the options to be installed on the vehicle.

PLAY BY YOUR OWN RULES

There are rules and then there are your rules. Make your van even more unique and perfect for your needs: Mobilvetta offers additional packs and accessories that adapt perfectly to the individual models to increase their versatility, optimise their functionality and boost their performance.

ARCTIC PACK

Also ready for “more extreme” adventures:
COMBI D6E DIESEL AND CP PLUS HEATER
INSULATED GREY WATER TANKS WITH ANTI-ICING PROBE
CAB THERMAL INSULATION
CAB THERMAL BLIND
PLEATED CURTAINS IN CAB AND REAR DOORS
THERMAL INSULATING COVERS FOR WINDOWS

DRIVE PACK

More safety on the road, more comfort when driving:
LED DRL HEADLIGHTS
FOG LIGHTS
LEATHER COVERED STEERING WHEEL AND GEAR LEVER KNOB

TRAVEL Pack

Autonomy and comfort at rest:
ENCLOSURE
SOLAR PANEL

WINTER Pack

Safe in winter:
INSULATED GREY WATER TANKS.
WITH ANTI-ICING PROBE.

Some of the features shown do not correspond to the final features of the vehicle for the current season.

The masses indicated in this catalogue refer to the provisions of European Directive 2007/46/EC

MASS IN RUNNING ORDER

It includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and a gas tank for living purposes (20 kg).

The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed

PAYLOAD

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects.

The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage.

All masses and loads of the empty vehicle have a tolerance of $\pm 5\%$, in compliance with Directive 2007/46/EC.

Any optional equipment increases the mass in running order and decreases the payload.

The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue.

Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers.

In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats. Please note that the law does not allow the maximum permissible mass to be exceeded, which can be consulted under the specific heading of the data sheets.

Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle.

The regulations and requirements of each country may entail changes in the characteristics of this table.

The number of certified seats may vary depending on the traffic regulations in force in each country.

When driving, the fresh water tank must be filled to a maximum of 20 litres.

www.mobilvetta.it

MOBILVETTA reserves itself the right to change the characteristics and the furnishings of all its models with no advance notice required; all data contained in this leaflet must therefore be considered approximate and non-binding. Despite thorough checks of the contents, we cannot exclude possible printing and/or translating errors. This catalogue does not constitute contractual documentation. Any reproduction, including in part, of the text or of the content of this document is prohibited. The indicated weights are exclusively approximated. Tolerances of $\pm 5\%$ are allowed. Generally speaking, special equipment and options increase the no-load weight and entail a reduction in the payload. We hereby decline any and all responsibility in case structural changes are made to the vehicle; any assembly, disassembly or changes carried out by unauthorised workshops may jeopardise your safety and cause the warranty clauses to be forfeited. For additional information on installation and technical details, please contact one of our dealers.
